Description
Item Specifics - Wristwatches

 Brand: **Omega**
 Gender: **Men's**
 Features: **Chronograph, Day/Date, Water Resistant**

 Age: **1970-1999**
 Condition: --

You are bidding on a Used but, incredible Super Mint like New Condition Mark III Speedmaster Seamaster Professional. The watch is stainless steel with black face. At 17mm or .65625 inches, it's very tall, but it has an awesome high-tech look to it that is very appealing. The watch has been stored in a safety deposit box for safe keeping for years. It has been professionally cleaned and tuned up by Omega. The watch is in 100 percent working order and fully functional. The watch is in amazingly like new condition. Cosmetically, the body and glass only have a few hairline nicks and scratches which are hardly noticeable. This watch was made in 1973 and has been in my family since bought. The case that comes with the watch is not original to the watch but it is an original red leather omega watch case. The watch comes with all of the original links to the band. The back plate of

the watch says SEAMASTER and has a picture of a sea monster with the omega symbol. Shipping for this watch will be UPS Ground and will require insurance. Shipping will be world wide and will be charged according to destination. If out of US please email me for a quote on shipping. Please use the calculator for shipping price.

Omega Mark 3 History...

In 1972, Lemania and Omega presented their jointly developed caliber 1040a central rotor winding automatic chronograph with a diameter of 13 3/4 lines, and a height was 8 mm. The Mark III marks the first use of this movement in an Omega watch. The Omega c.1040 movement is a non-chronometer rated movement. However in 1973 after some fine tuning the chronometer grade c.1041 movement used in the Speedmaster 125 Anniversary Chronograph would be produced.. Both Omega Calibre 1040 and 1041 are also known as the Lemania Calibre 1341. The 125 marked Omega's first Chronometer Chronograph, and was the first chronometer grade automatic chronograph. a precursor to the current Seamaster Professional Chronograph-Chronometer, although the movement has little in common with the current model Seamaster The Mark III is the only one of the Mark Series to have three very distinctive case styles, the second of which has a very similar model in the Seamaster series.

Mark III Instruction Manual

These scans are from a Mark III Directions booklet. They can be used not only for the Speedmaster Professional Mark III Automatic and Speedmaster Mark III Automatic, but also any Omega Chronograph utilizing the Lemania 1342 base movement. These include the Speedmaster Professional Mark IV, Speedmaster 125, and several different Seamaster Automatic models.

FRAUD ALERT!

The person holding this auction is fraudulently using a picture or pictures of an item other than the one he is selling.

The ethical, moral and legal ramifications of doing business with such a person is obvious.

I recommend you retract any bids you may have made and report this seller to a moderator.

Honesty is exceedingly important when doing business via the web. This seller is simply not worth the risk...

Buyer BEWARE!!!
